BOSTON VIEWS OF "UNSETTLED QUESTIONS"

[From the Boston Journal]

It is the misfortune of the *Herald* that it is so constituted that its latest impressions on important topics so completely engross its attention, so fill it up, that previous occurrences and the facts of history are crowded out and obliterated. To day it sees Southern Democrats leading the onsets upon the Treasury for Mississippi River improvement appropriations, for money to maintain Boards of Health which should be sustained by the States—indeed, attaching an appropriation coupon to every part of the flag—and consequently jumps at the conclusion that they have renounced the dogmas of Calhoun It forgets that these same men have always been eager seekers of appropriations, and asks the *Journal* half contemptuously if it thinks there is any life in "the old heresy of State rights?" Perhaps the best thing that we can do is to permit the *Herald* to answer its own question The *Herald* will admit that the Democratic hostility to Federal election laws has always been based upon the "old heresy of State rights." When the Democratic party in Congress nullified those laws by refusing to appropriate money to enforce them, they defended their action upon the ground that the Federal Government has no right to interfere with the election of Congressmen. Even after the Supreme Court declared the election laws to be constitutional, the same hostility was maintained. While this was going on the *Herald* characterized the Democratic action as nullification. When the appropriation of money to pay Supervisors was under consideration in the present Congress, several statesmen of the Beck type declared that they would never vote money to enforce the Federal election laws, which is very good evidence that "there is life in the old heresy of State rights " There has been no general election since November, 1880. March 1, 1881, in referring to Senator Wallace's report on the matter of Commissioner Davenport in New York, the *Herald* said

"Senator Wallace has undertaken a job altogether beyond his capacity, in attempting to make the country believe that the interest of himself and his brother Democrats in securing the repeal or emasculation of the Federal election laws is wholly due to a superior devotion to a 'free and fair ballot ' It won't go down. It is all very well to talk of the ability of the States to protect their own citizens against force or fraud, but, as a matter of fact, it has been demonstrated that many of the States can't or won't. At the South there is not even the form of impartial supervision or protection, except as the national law secures it."

A few days later, in commenting upon and approving President Garfield's allusion to the question of suffrage in the South in his inaugural, the *Herald* said.

"There can be no doubt that, were the Democratic party to secure control of the Government, all laws providing for federal supervision would be at once wiped out The question is likely, therefore, to remain one of the latent issues in our politics Men who are more concerned for honest elections and for good government than for partisan success obtained 'at any cost,' will naturally support the position taken by the President. The United States cannot be, in any practical sense, a nation unless it has the power to protect citizens whose highest allegiance it claims, and to guarantee to each State such a Republican form of government as is based upon the will of the majority, fairly and freely expressed and lawfully executed."

We submit that the *Herald* has answered its own question and that upon its own declarations there is sufficient life in "the old heresy of State rights" to make questions based upon and nourished by that heresy one of the latent issues in our politics—one of those "unsettled questions" which "have no pity for the repose of nations."

In the same paragraph the *Herald* facetiously remarks that the *Journal* discovered, or thought it did, a new rebellion at the South in 1880. What we discovered was a conspiracy on the part of the Democratic managers to stifle the will of the majority in South Carolina, Alabama, Florida, Louisiana and Mississippi—five Republican States. The conspiracy was successful, in spite of the federal election laws This may not be rebellion in the estimation of the *Herald* which was issued last week, but in the opinion of the *Herald* which was issued during the summer of 1879, the date of the Yazoo outrage in Mississippi, the conduct of the Democratic managers was stigmatized as worse than rebellion, as the following *Herald* opinion of that date shows:

"We do not hesitate to say that the course of the Mississippi Democrats, if persisted in, *merits the extreme penalty applicable to a State which fails to maintain a Republican form of government, and justifies the employment of a Federal army, if necessary, to enforce obedience to the Constitution.*"

Nothing but the nullification of the Constitution and the laws would justify such language, and in the States referred to there is reason to believe that the same frauds and outrages against suffrage will be perpetrated in 1882 as were perpetrated in 1876, 1878 and 1880. Louisiana and South Carolina have already passed laws designed to nullify the federal election laws. A Greenback leader has already been assassinated in South Carolina, with less provocation than was the independent candidate for Sheriff in Yazoo in 1879, and the murderer is now at large upon a small bail. Doubtless when the attention of the versatile *Herald* is called to this matter, a paragraph like that copied above will be flung at South Carolina.

Preston Powers, the well-known sculptor, of Florence, Italy, arrived in Portland, Tuesday evening.

Androscoggin.

The two Knowles boys, of Lewiston, who were burned so severely in the powder explosion, July 5, are now up and about. They bear horrible scars. One of them cannot use one hand. The Laughton boy is on the road to recovery.

The *Journal* says "Lewiston now has a scandal similar to that of last week in the Barker Mill district, Auburn. A woman on Bleachery Hill has made an application for a warrant against a Turner farmer, whom she accuses of assaulting her while he was in her house with butter for sale '

An excursion party from Lewiston and Auburn will visit Montreal and Quebec, leaving on Thursday, the 20th.

Wm. F. Garcelon, Esq , of Lewiston, had the honor of reeling in a bass, recently, said, by the guide, to be the largest one caught in Cobbosseecontee this season.

The date of the visit of the Auburn Light Infantry to Lynn, Mass , has been fixed for Oct 12th. The entertainment will consist of a parade, exhibition drill, ball banquet, etc , and a general good time is expected.

On Saturday, Wm Burnham and L C. Wing, at work for H. M Brewster, at Curtis' Corner, were mowing near the road, when they saw a swarm of bees on a limb of a small tree Procuring a barrel, they held it under the limb, cut off the limb, and it dropped into the barrel with the bees. They quickly covered it, and sold the bees to a man in Monmouth for $3 —*Lewiston Journal.*

The *Argus* says that during the last quarter, 832 immigrants landed at Portland. The bulk of these were Norwegians Germans and Russians

The splendid new building of the Union Mutual Life Insurance Company, at Portland, has been thrown open for public inspection, and a more magnificent building cannot be found in New England, not even among the palatial business edifices of Boston.

Kennebec.

The Augusta Band is making marked progress under Prof Goetz, and the musicians are well pleased with him. The number of members has been increased to twenty-four.

Wednesday, Mr. Eliab Lyon, of Manchester, 85 years of age, died quite suddenly, although he had been failing some time. Last spring he was stricken with paralysis, so that he was insensible, and it is related that upon recovering his sensibility, he exclaimed, "The old man isn't dead yet, he will live until the 15th of July." He died the 14th.

Miss Grace Lawson, on the east side of the river, is a young lady of no mean attainments. Sunday evening she bethought herself how pleasant it would be to have a little row on the placid waters of the Kennebec. Accordingly, she calmly stepped into a skiff which lay in the canal by the steam mill on the east side, and commenced to gently paddle around By some unexplained means the boat capsized and Miss Lawson was precipitated into the cruel water. But our heroine was by no means terrified. She called for help and then boldly struck out for shore. Mr Frye the watchman rushed down just in time to hear Miss Lawson exclaim 'don't be scared, I can swim," and see her crawl out on a log all wet and bedraggled. Frye threw her a rope and pulled her in, none the worse for a little swim —*Augusta Journal*

York.

Thursday morning, when Mr. Theodore Emery, of Alfred, went to the barn to do the morning chores, he found his son Mellie, whom he supposed in Boston, on a load of hay. On calling him by name he received no answer, and on going up he found him unconscious. He was taken into the house, and a physician summoned, who found him laboring under a brain difficulty, but from what cause he was not able to ascertain.

THE INSPECTION OF STEAM VESSELS

INSPECTOR TOWER'S RESIGNATION CALLED FOR.

A Washington despatch to the Boston *Herald* under date of the 17th, says. "Secretary Folger has informed George B. N Tower, formerly of Boston and now supervising inspector of steam vessels at New York, that his resignation will be accepted on presentation, assigning, as cause for the suggestion, wilful and repeated acts of insubordination. This is the outcome of a long struggle between Supervising Inspector-General of Steam Vessels Dumont and some members of the board of supervising inspectors, chief of whom was Tower. Gen. Dumont has always insisted that the law governing the inspection of steam vessels should be strictly construed and rigidly administered in the interests of passengers and freight owners. The rebellious supervising inspectors refuse to accept his construction of the law, and refuse to execute it as directed by him. Last summer, it will be remembered, Tower and some others refused to make the treasury department a daily report of the transactions of their offices, in flat violation of the direct order of the secretary of the treasury. It was owing to this disobedience, which was prompted by dislike of Dumont, that Tower's successor was nominated by President Garfield at the extra session of the Senate last summer. The nomination was not confirmed because the Senate adjourned before action could be taken. Tower seems to have construed this, and the subsequent patience and forbearance of the secretary of the treasury and supervising inspector of steam vessels, as a quasi indorsement of his course. At any rate, he proceeded from bad to worse He did everything that he could at every possible point to thwart the wishes of his superiors. He capped the climax by exempting steamboats from the requirements of the inspection laws respecting life boats A number of Hudson river steamboats are to night, as a result of his exemptions, lamentably deficient in the means of preserving life. It was for disregarding the law and the instructions of his superiors in this respect that he was finally asked for his resignation. Secretary Folger said today that he thought his letter would bring Tower to his senses or his resignation to the department."

STOP AND THINK

A Greenback convention was held at [illegible] last week for Oxford county. A part of the ticket was nominated and it was [illegible] left vacant for the Dem[ocrats] to fill. That is what Governor Plaisted [illegible] says no trades. The [illegible] all themselves Green[backers] [illegible] on the Fusion [illegible] their beds in the Democratic party and now they are mak[ing] [illegible] county tickets of pretended Greenbackers and Democrats. Every Greenbacker who votes the Fusion ticket votes himself into the Democratic party and does all in his power to vote the Greenback party out of existence. Honest men stop and think. Not only are you going straight into the Democratic party [illegible] going into the Democratic grave [illegible] when you are counted and buried in the Democratic party your future usefulness as a Greenbacker is gone. When you have made a record that leaves you in the Democratic party it will do you no good to assert your Greenbackism, but you will be judged by your acts and will be trusted only as Democrats. If you think you are going to succeed your judgment is poor. There is too much intelligence in the people of Maine to elect a ticket that stands on two platforms as hostile to each other and as far apart as was freedom and slavery.—*Thom[aston]*.

The Louisville (Ky.) *Courier Journal's* Indiana correspondent has been travelling over that State and comes to the conclusion that while the beer magnates can carry a few Republican cities for the Democracy the Republicans will make good those losses in the rural districts, where a system of temperance harvests has been organized and where the Democratic farmers do not like whisky drinking and who do not want saloons in the villages which their sons frequent. "Whisky drinking," says the correspondent "is the curse of this country and the Democratic farmers in Indiana know it."

It is mortifying to people who try to have a good opinion of their fellow-citizens to know that 12,000 men can be gathered together in this city to watch a brutal prize-fight—for that is what the disgusting exhibition in Madison Square Garden really was. The walking matches were bad enough, but this was worse.—*N. Y. Tribune.*

THE FRUITS OF PROTECTION

In an interesting letter recently published in the New York *Herald* respecting the stock raising of the country, the author introduces for comparison the prices of farm produce and stock as found in a paper published in the interior of the State of New York in 1816 and the prices of the same at the present time. The figures are so suggestive that we copy them

	1816	1882
Wheat was then from	25 to 44c	$1 [illegible]
Corn	17½ to 25c	60
Oats	[illegible]	[illegible]
Eggs, per doz	[illegible]	[illegible]
Barley per bushel	[illegible]	[illegible]
Butter per pound	[illegible] to 12c	[illegible]
Cheese, per pound	[illegible] to 6c	13
Cows, per head	$6 to $20	$30 to $[illegible]
Cattle per yoke	[illegible] to 45	100 to [illegible]
Hay per ton	3 to 5	[illegible]
Straw, per ton	2 to 4	[illegible] to [illegible]
Carriage horses, span	[illegible] to 100	300 to 1,5[illegible]
Sheep per head	[illegible]	1.50 to 3.[illegible]
Farm labor per month	$5 to $[illegible]	$12 to $25

Formerly, and indeed nearly to the date that American manufacturers assumed an importance the farmer was obliged to exchange his produce for store goods at very high prices cash being almost out of the question. The following prices in 1816 and in 1882 for a few manufactured goods and other merchandise purchased by the farmer indicate the great change in favor of the agricultural classes and other consumers during the interval

	1816	1882
[illegible] per pound	[illegible]	10c
Raw [illegible] per pound	[illegible]	[illegible]
[illegible] per [illegible]	[illegible]	[illegible]
[illegible] per yard	[illegible]	[illegible]
W[illegible]	[illegible] to $[illegible]	[illegible] to [illegible]
[illegible] per yard	[illegible]	[illegible] to 12c
[illegible]	[illegible]	4 to 12c
[illegible]	$ to $4	[illegible]

[illegible] the average increase in the price of farm produce during the last sixty six years has been from 200 to 400 per cent while the average decrease of the price of manufactured goods during the same period has been from 200 to 400 per cent. All of which is due to the railroads and the introduction of diversified industries engaged in manufactures and fostered by a protective tariff.

The Democratic Senator is anxious to relieve the people of the burden of taxation by reducing the tobacco tax. Whisky and tobacco are actual necessaries [illegible] from their efforts to reduce the tax thereon while sugar is simply a luxury that can be done away with.

It is to be hoped that Congress before it adjourns will make an appropriation for the maintenance of the National Board of Health which has now come to a standstill for the want of the money necessary to carry on its operations. The National Board of Health is a very useful institution which does a great deal of extremely valuable work. That there is nothing so important to the individual as his health is a saying which is none the less true because it is so trite and the health of the individual is largely dependent upon that of the community in which he lives. The public health must however be promoted and protected by public agencies and of these the institution referred to is one of the most beneficial. Every week and almost every day immigrants are pouring into this country by the thousand who in the absence of sanitary supervision are likely enough to carry the germs of disease far and wide through the country. If only to look after them, the National Board of Health should be properly supported by Congress.—*Philadelphia North American.*

The *Opinion* fl[ies] into a passion on account of the exposure of the record of Mr Murch as Representative by a Washington correspondent of the *Free Press*. It characterizes his statements as dirty lies and insinuations, and then proceeds to abuse Mr Joseph W Bartlett of Washington as the supposed author. This attack on Mr Bartlett is entirely misdirected as he is not our correspondent. The *Opinion's* wrath could not be suppressed at the damaging evidence of Mr Murch's uselessness in Congress and so it discharged its epithets at random. But if the statements made by our Washington correspondent are "dirty lies" it would be more effective to prove that fact than to merely assert it and show by ill temper how hard Mr Murch has been hit. Our correspondent is furnishing the constituents of Mr Murch desirable knowledge of his record. He promised gloriously as to what he would do in Congress but his failure to accomplish anything is perfectly well known. The time for reckoning with him is now at hand and the account of his stewardship is in order.—*Portland Free Press*.

The [illegible] Journal: York county is the locality in Maine where above all others the average citizen has political opinions. Two former residents and natives of that county met in this city a few days since and, as the most natural thing in the world began to talk over the situation in Maine. "I think Plaisted has an even chance," said the Democrat. "I don't," responds the Republican, "I have assurances from all parts of the State which give me faith to bet you $100 that the whole Republican ticket will be elected by 5,000—take me if you dare." "Betting is very immoral," retorted the genial "Lake Shore" representative with a knowing twinkle in his eyes as he turned away.

The census statistics relating to American fisheries are interesting reading. These figures show fisheries to have been worth in the value of products the very handsome sum of $45 000 000 in the year 1880. This was the price, moreover, that was paid to the producers simply. At wholesale prices the pecuniary return for the same products reached the neat little fortune of $90,000,000. The products included dried cod and pollock, smoked herring, halibut and mullet, pickled and spiced fish, salt mackerel, canned salmon, lobsters, clams, oysters, crabs, shrimps, cod, and sardines. The consumption of these is constantly increasing abroad, and very profitable sales for them has been built up in England, France, and Germany. As yet it appears, however, the pickled fish of American waters are but seldom sent abroad, although great quantities of pickled fish are consumed in Europe. It is recorded that since the Berlin exhibition of 1880 American fish have become popular on the Continent, and agencies for their sale have been established in very many of the leading cities of Europe. Another fact of interest is that the boneless American codfish has been adopted as a a standard article of food by many regiments of the German Army. Proof of this growing popularity of our fish is afforded in the statistics of exports to Europe. In 1869 the exports of fish reached only $134,783, according to a local commercial journal. Last year there was shipped abroad $1,902,100 worth of fishery goods. Of this amount $403 629 was received from the exports of oysters to England alone.

The official count of the vote cast on the proposition to amend the Constitution in Iowa prohibiting the manufacture and sale of intoxicants shows a total of 281,881. This is 46,275 more votes than were cast for Governor in 1881, but 41,237 less than were cast for President in 1880. The majority for Prohibition is 29,751.

The South Carolina Bourbons, having fixed up a Congressional district with about 25,000 Republican majority, magnanimously propose to make no nominations in it.

The Portland *Advertiser*, Plaisted organ, hears a rumor of an Independent Republican movement in Maine. That device to re-elect Plaisted and a Democratic-Greenback delegation to Congress will not work. The number of "independents" in Maine this year is the smallest known for twenty years. The Republican party there was never so well united.—*Boston Journal.*

Mr Henry Watterson ascribes his change of front on the Tennessee debt question to his desire to prevent a continuance of Republican government in the State. The debt he thinks, is a "local question" and should be ignored when in conflict with Democratic success. Mr Watterson's effort to ignore the debt question is likely to prove as successful as a recent Democratic Presidential candidate's attempt to ignore the tariff question.

The North Carolina canvass is developing a great deal of bitter feeling. The numerous desertions from the Democratic side appear to have made that party desperate. A defeat now, it is recognized would be a rout, and render it impossible to reorganize before the next Presidential election. The following incident of the canvass is related by a correspondent:

There is a number of clever colored stump orators in North Carolina. Among the most prominent of these are Harris and O'Harra. Harris is an old politician and during the days of carpet-bag-ism frequently canvassed the State. He also did good work on the stump in Virginia for Mahone and his party last fall. During the sitting of the Democratic State Convention here on the [illegible] Governor Jarvis in a speech delivered to that body challenged the Republican speakers to meet him in debate in the canvass. A few days later the negro Harris addressed a note to the Governor which was sent by the hands of an ex-Confederate officer accepting the challenge. No notice however was taken of the note.

DEMAGOGUE PLAISTED

P. H. Gordon writes as follows to Solon Chase's paper:

I have been waiting somewhat anxiously to hear Governor Plaisted speak in stentorian tones again that principle of wrong and injustice which we have been told was so firmly imbedded in his manly and honest soul. I refer to the national banking system which is kept alive by the existence of a huge bonded debt which is crushing the wealth producing classes of this country to want and poverty, and if not exterminated will result in developing a class of lords on the one side and serfs on the other. Less than two years ago I heard Gov. Plaisted with my own ears very earnestly denounce this great injustice and monopoly and those engaged in it as being unworthy of this people and of being leaders in the council of this great nation. He referred to his visit to New York a short time time before and very vividly described the scene of a Republican torchlight procession with these national bankers in line with their lanterns on their arms which designated their business and their position to the great city and money center of the country. The very anguish of his soul flowed out in condemnation of this great monopoly its originators and conductors and he said that if that principle and that class of men were to prevail and elect the next President that the shackles of slavery would be fastened upon the laborers of this country and for them it would be a long dark day indeed.

Now the party that has nominated him as their standard bearer of this State have nominated also from that class of men who carried the lanterns a man to head their Congressional ticket. I have been waiting long and anxiously to [hear] a call for an indignation meeting with Governor Plaisted advertised to speak earnestly and enthusiastically from the depths of his soul in condemnation of this outrage upon the wealth producing classes of this country but I have not seen it and lo and behold I hear that he is going to take the stump for this candidate and advise the Greenbackers to vote for him. Oh to what depths of degeneracy has this pious Plaisted descended. "Oh consistency thou art a jewel; deception thou art a curse." Now brother Greenbackers I ask you to lay aside your Plaistedism and view this matter from an unprejudiced standpoint and I do not believe that you as an honest Greenbacker, can longer be blinded and led by this demagogue Plaisted. One word more. I would call your attention to Mr Thing's letter of acceptance in which he says that he shall not only through this campaign but as long as life shall last he shall be in perfect accord with the Democratic party and all others like it. He also endorses that man who was nominated to head the Congressional ticket, and taken from that class of men who carried the lanterns.

NOW!

"I am well and strong and don't need to insure my life." Queer logic. When you are sick or broken down you can't get insured! Now is the very time to provide for accident or sickness—while you are healthy and can get insurance, and while you are young and can get it cheap.

The NEW PLAN brings it down to actual cost, and the party in interest can get CASH for policy at the end of 10 years.

Summer of '82.

On Board STEAMER KATAHDIN, Capt F C Homer, on

MONDAY, JULY 24,

Leaving Her Wharf at 8 o'clock A. M., en route for Camden and

Rockport Harbor,

accompanied by the Bangor Cornet Band. This fine steamer will be prepared especially for the accommodation of this party and decked in bunting from stem to stern.

Accommodations.

THE MAIN DECK cleared and amply furnished, will be open for promenade and at intervals the band will be stationed there to play for impromptu dancing. This deck in two large wings, will allow sixty couples to dance at one time.

THE SALOON DECK abundantly provided with seats, will offer commodious and elegant room for several hundred people and has a large awning forward of the main cabin where will be a supply of folding chairs. Opening out of the grand saloon the state rooms will be especially desirable for rest, refreshment etc., the entire day and evening. In this apartment a concert will be given by

The Astrella Quartette of Boston,

(M Russo, 1st violin, Prospero Astrella, 2d violin, Francesco Astrella flute, Domenico le Modena.) This club is composed of musicians who are artists, playing finest selections from German and Italian operas. This novel feature of an excursion will show the determination of the managers to advance the already high standard of this yearly event.

THE HURRICANE DECK on this occasion will be thrown open for occupation, extra rope guards will be placed around the deck, and seating room provided over its entire surface. New stairs have been built leading up from the saloon deck, and the fine elevation will make this a most charming place to enjoy the sail.

At Fort Point our Cornet Band will give a lawn concert after dinner. The beautiful hotel and grounds have been placed at the disposal of our people as its patrons, by the courtesy of Landlord Russell, who will cater to the wants of the party.

The Katahdin after landing passengers at Fort Point, will steam down the bay to the charming little harbor and town of

ROCKPORT,

(touching at Camden.)

arriving there at about 1 30 P. M. For those who wish to picnic, there is a large and well kept grove within a few rods of the wharf which has been secured by the managers for the day. The Carleton House, with good teams to let, is near the wharf, and boats in the harbor, both oar and sail.

Returning will touch at Camden and stop at Fort Point for an hour, and make short stop at Bucksport, arriving in Bangor at 9 30.

In the Evening at Bucksport,

a concert will be given at Emery Hall by the Astrella Quartette, to be followed by a ball, music by the same. Those who participate may return to Bangor on special train to be provided, starting after the ball.

Meals will be served on board the steamer by the Steward, Mr Leonard, at reduced rates, also meals served in state rooms.

Tickets for the excursion will be for sale at the ticket-office on the steamer, also on the saloon deck.

State rooms will be sold by Mr Patten, in Pickering Square, at 3 to 5 o'clock, this Friday P. M., and 7 to 8 in the evening, and same hours on following days.

Further particulars hereafter, also on circulars to be distributed, including concert programmes.

The checks, however, were stroyed, they being unable to negotiate em. The case will probably be brought fore the United States Court at Boston.

NEW YORK.

The Railroad Suits.

NEW YORK, July 20. In his plea in the ntalpus case, yesterday afternoon, Ros- e Conkling said: "Something has been d as to the public and intrinsic effect of is proceeding. I have no apology to ake. If there be in the world a partner- ip between men which is natural and e and useful, it is the partnership be- een capital and labor, between the man o is willing to work and the man who eds the work and is willing to pay for it. in the partnership, any advantage is to gained by one over the other, all my e and all my feelings compel me to be holly on the side of the man who labors. want him and within any sphere of my n (I mean him) to receive always a fair y a wages for a fair day's work, but let say to your Honor, attempts like this gender hostility between the two classes d are the fountains of commotion, agita- on and bad blood, and they mean no ood to the honest toiler, though they may omote the schemes of some man or men ho use the name of working man as a me on which to carry forward this or y other proceeding. But they mean no ood for any honest man; they mean rm and lasting injury.

The Case of Gen. Curtis.

The case of General Newton M. Curtis, Treasury agent, who was indicted and nvicted in the U. S. Court, before Judge nedict, for collecting money from office lders for political purpose, again came up -day, when a decision was rendered by the urt in Banc on the motion for a new trial nd an arrest of judgment, which was rgued a fortnight ago. Judge Benedict aid the Court was unanimous as to the alidity of the statue touching this case. He then handed down an opinion, prepared by Judge Wallace in which all the udges concurred, which is to the effect hat the act of Congress prohibiting political assessments is constitutional and the motions for arrest of judgment and for new trials are denied. Judge Benedict sentenced Gen. Curtis a fine of $500 each on the first and eighth indictments.

In the afternoon Kurtz and Lave were identified as the men seen at the bank the morning of the burglary and were held for examination in $5,000 bail each. ARABI PASHA IN A STRONG POSITION.

WATERS OF THE CANAL DIVERTED.

ALEXANDRIA WITH ONLY TEN DAYS' SUPPLY.

Europeans Massacred and Houses Plundered.

Arabi Pasha Encouraged by British Inactivity.

ALEXANDRIA, July 20. It is stated that the foreign consuls intend to demand compensation for damage done to their property by Arabi's firing houses, alleging that had troops been landed soon after the bombardment, no houses would have been burned.

LONDON, July 20. The Times' Alexandria correspondent says: Although severity is necessary to reestablish order, I believe the actual executions do not exceed eight and the total number of killed twenty. Arabi talks of advancing upon Alexandria Thursday. This is improbable, but it is possible that he will enter Ramleh. An American artillery officer expresses the opinion that the immense superiority of marine artillery employed in the bombardment practically leaves the question of relative power of land and marine artillery unaffected. A wall fell, Wednesday, on a carriage containing four persons, all of whom were killed. That Arabi Pasha has been greatly encouraged by British inaction is made manifest by his activity. His patrols have penetrated within five miles of the city walls. The police officials are continually asking when we are going to act against him. There is great satisfaction at the palace at the departure of Dervisch Pasha. The officials ascribe much of the present evil to his intrigues. He is suspected of communicating with the rebels during the last few days.

The Porte's Reply to the Powers.

ALEXANDRIA, July 20. DeLesseps has arrived here, and had an interview with the Khedive. The chief difficulty in restoring order continues to arise through the quarrelsome conduct of Greeks. The hatred of them shown by Arabs is intense. Lord Beresford is taking every precaution against outbreak. He has issued a notice that he will make no distinction between Europeans and natives. The Custom House has been reopened.

LONDON, July 20. A despatch from Constantinople says: The Porte has replied to the identical note of the powers regarding the dispatch of Turkish troops to Egypt. The Porte proposes the assembling of a fresh conference.

A despatch from Constantinople says: The text of the Porte's reply to the identical note of the powers is as follows: If the Porte has not hitherto decided on its own initiative to send troops to Egypt because it is convinced that vigorous measures were avoidable, observing with satisfaction that the powers have formally and repeatedly recorded their deference to uncontestible and unquestioned rights and sovereignty of the Sultan, the undersigned by the Sultan's order, informs the ambassadors that the Porte consents to participate in the conference.

(Signed,) SAID.

The Conference

met yesterday chiefly to consider temporary measures for the security of the Suez Canal. The idea which found most favor was that the protection of the canal should be entrusted to England and France in conjunction with a third power. No decision, however, was taken owing to want of instructions from the respective Governments of the conferees. The Times' Alexandria correspondent understands that De Lesseps informed Admiral Seymour that the passage of men of war through the Suez Canal constitutes a breach of its neutrality. The force is increasing and gaining influence because of the delay of the British troops.

There was a hurriedly convened meeting of the Cabinet held this afternoon. It is stated the meeting was called to consider a telegram from Lord Dufferin at Constantinople and make arrangements for military operations.

The conference meets to-day to discuss the reply to this communication. It is thought probable that a fresh invitation to join the conference will now be addressed to the Porte.

The News' Constantinople despatch says the Porte has sent imperative orders to Arabi Pasha not to make a movement. Arabi is trying to establish relations with the Arabs in Tripoli and Southern Tunis.

Hugh Childers, Secretary of War, is having an interview with Sir Garnet Wolsely, Quarter-Master-General, at the War office.

Spanish Gunboats to be Sent to Egypt.

WOOLWICH, July 20. Six special trains laden with horses, have arrived here. Pressing orders are received for some millions of cartridges.

CONSTANTINOPLE, July 20. It is stated that the Spanish Ambassador has informed his colleagues that Spain intended to station three gunboats at each end of the Suez Canal to escort the Spanish Manilla mail steamer through the canal; and that she will also send four iron-clads to Alexandria.

PARIS, July 20. It is not thought likely that DeFreycinet will retire, but that possibly Goblet and Humbert will.

BOMBAY, July 20. The ship owners of Calcutta, have been invited to offer tenders for transportation to Egypt of five thousand men and six hundred mules.

Prayers have been offered in Calcutta mosques for the success of Arabi Pasha.

Canal Diverted.

ALEXANDRIA, July 20. Arabi Pasha has diverted Mahmoudy canal which supplies Alexandria with water, but it is believed the greater part of the cisterns have been recently filled.

Arabi's Position Strong.

ALEXANDRIA, July 20—3 P. M. Gen. Allison, with several officers, has reconnoitered to within three miles of Arabi Pasha's position, which he found to be very strong.

Telegraph Cut.

SUEZ, July 20. The telegraph has been cut near Kaire el Dwar and there is no communication between Ras el Tin and Suez. The Governor of Suez receives all instructions from Arabi Pasha in the capacity of Minister of War. The Governor's position is consequently one of great difficulty.

To Strengthen the Force in Egypt.

Everything at a Standstill.

ALEXANDRIA, July 20. Everything is at a standstill. The fleet can condense sufficient water for the crews and troops, but not for the populace who must go afloat or retire to the villages. Suez Canal and Port Said are considered most insecure, as there is only a small gun boat in the canal and 12,000 Europeans in Port Said, with 700 Arabs. Several hundred soldiers with field guns under Mahmond Sohmy, are at Fort Quemil, six miles off. The town is literally at the mercy of the soldiers and people. Two British corvettes have gone to Port said. Arabi Bey is calling in all the Bedouins in the neighborhood of Ramleh.

Report From Cairo.

LONDON, July 20. Reuter has the following from Alexandria: Omar Pasha Sufti, Governor of Alexandria, has returned from Cairo by the way of Port Said. He made the following report to the Khedive: On the way to Cairo I saw Europeans being massacred and houses pillaged at Damanhour, Tantah and Mihollav, where the Alexandria rabble had arrived. They cut off the hands of the Berlierians because they served the Christians. Arabi Pasha had called a meeting at Cairo of all the Pashas, Ulemas and Notables and asked them whether it was right to obey the Khedive seeing he had sold Egypt to the English, ordered the military bake houses to make 1500 loaves daily for the British, without providing for our own troops, and sent telegrams in their name. Sheik Hassan recommended the declaration of a holy war, but at the instance of Coptic Patriarch moderation prevailed. The meeting appointed a committee to go to Alexandria in order to verify the accusations against the Khedive. It was arranged that a committee of seven should start on the 18th, going from Cairo to Ismaila. A council of war is held daily, Mahmod Baroudi presiding.

It is calculated there is sufficient fresh water in Alexandria to last ten days.

Another Expedition for Egypt.

Central Church Sunday School Excursion.

The annual excursion of the Central Church Sunday School and Society was held yesterday. The disagreeable fog and generally threatening weather of the evening previous were dispelled by the bright rays of the morning sun, and upon the departure of the barge Clifford and steamer Ralph Ross, shortly after eight o'clock, with their freight of happy excursionists, all nature appeared in its best beneath a cloudless sky.

The party was the largest of any excursion which has this season journeyed down our beautiful river and bay. Their numbers were rising three hundred and embraced a large number of children, to whom this occasion was one of special interest. The Bangor Band accompanied the excursion and from the deck of the Ralph Ross discoursed excellent music, under the leadership of Mr. Delaney, while proceeding down the river.

The trip proved one of great enjoyment to all the participants. The sail down the Penobscot was delightful, the ever interesting scenery receiving an added charm from the resplendent sunlight, which fortunately was tempered by a refreshing breeze. Leaving the river at Fort Point, the excursionists sped across the expansive bay, passed the romantic Dice's Head and, after rounding the rocky promontory of Cape Rosier, reached about 12 45 o'clock the landing at Little Deer Isle, which had been selected as the objective point of the trip. The view presented in the passage across the bay, and especially while nearing the place of destination, was one of much grandeur. Penobscot Bay has varied charms of which the lover of the natural and beautiful most assuredly will never tire.

The excursionists left the steamers and were speedily arranged in picnic circles in the midst of the beautiful grove which lines the shores of Little Deer Isle. Directly after refreshments had been partaken off, the shrill whistle of the steamer summoned the party once more on board. The stay at this delightful spot was thus brought to a sudden termination, before the party had been on shore scarcely an hour, by the rapid inland march of a sea of fog which had been hovering to the southward during the forenoon. The steamers started on their homeward journey and another sail across the bay was enjoyed, the fog stealthily pursuing.

At Fort Point a stop of something more than an hour was made and the time was passed very pleasantly. The grounds now appear to splendid advantage and the marked improvement in the appearance of the Fort Point House was observed and commented upon. Shortly after five the party once more embarked and Bangor was reached about a quarter of nine.

The trip was a very pleasant one in all respects and it was universally pronounced one of the best of the many excellent excursions which have been given under the auspices of the Central Church Society. The excursion will long be remembered by all who were fortunate enough to have participated in it.

It is said that 14,000,000 bushels of sweet potatoes will be raised in Georgia this season, and how to dispose of the crop is a problem. Two attempts at solution are mentioned in the Atlanta *Constitution*. One is that freight rates can be made low enough to make western shipments profitable. The total crop weighs nearly half a million tons, and to carry such a freight should be an object to any company which could handle it and take it to a market where fair prices are sure to be obtained. The other solution is to use an evaporator and dry the potato, by which operation only about 15 per cent. of the weight is lost.

HAY FEVER.

For Hay Fever I recommend Ely's Cream Balm. It entirely relieved me from the first application; have been a sufferer for ten years. Going home and neglecting to take the remedy, I had an attack; after returning I immediately resorted to it, and found instant relief. I believe had I begun its use earlier, I should not have been troubled. J. COLLYER, Clerk, 118 Broad St. Elizabeth, N. J.

Messrs. White & Burdick, Druggists, Ithaca, N. Y.—I recommend to those suffering (as I have been) with Hay Fever, Ely's Cream Balm. I have tried nearly all the remedies, and give this a decided preference over them all. It has given me immediate relief. C. T. STEPHENS, Hardware Merchant, Ithaca, N. Y. Price 50 cents.

Apply into nostrils with little finger.

A GOOD FOUNDATION.

In American households the prevailing complaints are weakness of the stomach and its consequences, Indigestion, Nervousness and Rheumatism. Such sufferers can lay a good foundation for health by using Parker's Ginger Tonic as it tones up the stomach and nerves, and keeps the kidneys active to carry off the foul matter. —*N. O. Picayune.* eod&w1m jy19

A SHORT ROAD TO HEALTH.

To all who are suffering from boils, ulcers, scrofula, carbuncles, or other obstinate diseases of the blood and skin, a course of Burdock Blood Bitters will be found to be a short road to health. Price $1.00, trial size 10 cents. d&w1w jy17

The Blood owes its red color to minute globules which float in that fluid, and contain in a healthy person, a large amount of Iron, which gives vitality to the blood. The Peruvian Syrup supplies the blood with this vital element, and gives strength and vigor to the whole system.

A HEAVY SWELL.

Jacob H. Bloomer, of Vergille, N. Y., writes: "Your Thomas' Eclectric Oil cured a badly swelled neck and sore throat on my son in forty-eight hours; one application also removed the pain from a very sore toe; my wife's foot was also much inflamed—so much so that she could not walk about the house; she applied the Oil, and in twenty-four hours was entirely cured." d&w1w jy17

NEW MAGAZINES.

THE MIDSUMMER HOLIDAY CENTURY. The first midsummer holiday number of The Century Magazine—the first number under the new name—makes a strong appeal to popular favor, both with the excellence of its illustrations and the interest and timeliness of its text. The frontispiece is a portrait of Richard Wagner, engraved in a most charming and delicate style, by Mr. Cole, of whom the public has come to expect only the best of work. An interesting paper, by Mr. John R. G. Hassard, the well known musical critic of the New York Tribune tells How Wagner makes Operas, an exposition which comes appropriately before the approaching Wagner festival at Beyreuth. The Personal History of Garibaldi is succinctly told by Mrs Bianciardi, and there is a portrait of him in his vigor, which tallies with the boldness of his exploits. The sporting article is Steam-yachting in America, by S. G. W. Benjamin, author of The Evolution of the American Yacht, in the last number. A large portion of both text and cuts is devoted to a detailed description of Mr J. G. Bennett's new yacht Namouna, of which there are some excellent drawings. Another timely feature, in view of the expected rush to Montana next year, on the completion of the Northern Pacific is Mr E. V. Smalley's entertaining paper on The New North West the first of a series which is to treat of the region along the railway from Fargo to the Cascades of the Columbia. The ground covered in the first paper is the Dakota wheat belt, the (so-called) Bad Lands and the Yellowstone country. Mr Smalley writes graphically and mainly from the investor's point of view giving account of natural resources, society topography climate, etc. An amusing brochure is The Lambs, a metrical satire on Wall street swindles (on the model of a Greek tradegy), written by Robert Grant, author of The Little Tin Gods on Wheels with choral songs by the bulls bears, and shorn lambs.

There are in addition, four fully illustrated papers. The Borderlands of Surrey, by Miss Alice Fenn, with striking picturesque drawings by her father, Harry Fenn, including Tennyson's house, Freshwater Brookbank where George Eliot wrote Middlemarch, Gilbert White's House at Selborne etc., The American Museum of Natural History (Central Park), by Dr Holder with beautiful engravings of birds, animals, and fossils, Some English Artists and their studios, by Cosmo Monkhouse, the English art critic, with faithful drawings by Vanderhoof, of the workrooms of Leighton Millais, Pettie, Boughton, Alma Tadema and others, and lastly, An Aboriginal Pilgrimage, by Sylvester Baxter, an account of the Eastern trip of the Zunis, with groups and excellent portraits and autographs of the Indians, and a portrait of Mr Frank H. Cushing to whose forthcoming account in the Century of his life and adventures in Zuni as a member of the tribe, this paper is preliminary.

Light reading is further supplied by the two serials by a short sea-coast story, by Noah Brooks, with the piquant title The Phantom Sailor by an agreeably unseasonable and poetic sketch of A Snowstorm by John Burroughs and by some reminiscences of George Eliot's aunt, Mrs Elizabeth Evans, which conclusively identify her with the character of Dinah Morris. In Mr Howells's story, Kinney the logger reappears and Bartley discusses a delicate question of newspaper ethics with another journalist, and the plot thickens. In Mrs. Burnett's Through One Administration, Bertha tells her story to Agnes Sylvestre. Some of the strongest scenes of this story it is stated are yet to come. Besides Robert Grant, the poets of the number are, I. W. Parsons H. H., Edith M. Thomas Austin Dobson, H. C. Bunner, and John Vance Cheney.

The chief feature of the departments is an editorial article of nearly ten pages' length on The Metropolitan Museum and its Director in which is reviewed the controversy over alleged restorations in the Cesnola Collection of Cypriote Antiquities. The other departments are shorter than usual. In the Bric a Brac is a Ballade of Etiquette by Frank D. Sherman whose light verse of the kind has recently attracted attention.

The content of LIPPINCOTT'S MAGAZINE for August are light and summery throughout suggestive of mountain rambles and seaside excursions. St Jerome's Day with the Pueblo Indians is a well illustrated paper descriptive of a half religious, half barbaric festival in New Mexico. An Adirondack Home, by P. Deming, has the well known characteristics of the writer's [illegible] sketches close observation, quiet humor and sympathetic treatment of the primitive freshness and quaint features of life in the wilderness. The Romance of Childhood, by Henry A. Beers, is a charming paper tinged with a delicate fancy by turns tender and playful. Mrs M. G. Van Rensselaer's concluding paper on the Alleghanies gives a deeply interesting sketch of the career of Gallitzin the prince missionary who did so much for the early civilization of the mountain regions of Pennsylvania, and in contrast to this, a description of the Cambria Iron Works, which form the most striking features of the scenery of that district. Bay Beauties and Bay Breezes by P. V. Huyssoon, is very amusing, while an article on Shires and Shire Towns in the South, by Anthony Van Wyck traces in a manner that will be new to most readers the influence of these territorial divisions on social habits and political ideas in the Southern States. The new serial, Fairy Gold, grows in interest, the scenes and characters being an evident transcript from society life in New York. The short stories, Edge Tools, by Eleanor [illegible] Mr. Larrabee's Morning Call, by Charles Dunning, and Marcy Hartwick, by Chauncey Hickox are bright and entertaining, and the editorial departments are as well filled as usual.

THE AUGUST WIDE AWAKE is notable for some very beautiful drawings of girls with flowers, the exquisite frontispiece, accompanying the exquisite poem of How the Laurel went to Church, by Emily A. Braddock. Easter Lilies—a sumptuous Sheaf and Canada Lilies on Stately Stems. All three are drawn by Miss Humphrey, and two of them illustrate, in company with other engravings, Miss Harris' charming Wild Flower Papers, No. VI. Among the good short stories is a true one of old frontier life, in which figures Simon Kenton the famous Kentucky backwoodsman, another, likewise a true one, is by Mrs. Louisa J. Craigin, The Floral Procession, a story of Old Boston, with Mrs. Harrison Gray Otis as one of its characters. Both these stories have full page engravings. A long installment is also given of the Trojan War, full of fun worthy of school-boys deep in the classics. Edward Everett Hale describes his late visit to the English Parliament, and the comedy, No Questions Asked, moves on amusingly. An art article in the right direction is the one entitled John Angelo Visits the Water Color Exhibition, giving the young people a very clear idea of the spectacle which yearly interests thousands of sightseers in New York City, and which is discussed by newspapers throughout the land. It has thirty-one engravings and fac-simile sketches of prominent pictures. The Chautauqua Reading Course abounds in good things, but the charm of the number to hosts of young folks will be the sparkling operetta, Rebellion of the Daisies, with its do not tive situations and costuming and its brilliant music. The six capital illustrations are by Reginald Birch, the music and libretto by Louis C. Elson. The Wide Awake operettas heretofore given have proved great successes, and have been performed before large audiences with much eclat, but we predict greater popularity for The Rebellion of the Daisies than for any previous juvenile operetta. Only $2.50 per year. D. Lothrop & Co., publishers.

SWAYNE'S OINTMENT

AN UNFAILING REMEDY FOR ALL SKIN DISEASES SUCH AS TETTER ITCH SORES PIMPLES ERYSIPELAS BLOTCHES RING WORM &c.

OINTMENT

THE GREAT CURE FOR ITCHING PILES

[illegible]

[From Frank Leslie's Illustrated Newspaper.]

A LADY SAID

"Those Horrid Pimples! No, I Cannot Go. Please Present My Excuses".

Probably two thirds of the ladies in society and homes of our land are afflicted with skin diseases of various kinds, to do away with which, if it could be done without injury, would be the happiest event of their lives. Then she would have instead of a disfigured and marred countenance, one that would be handsome, or at least good looking, for any one with a clear, pure skin, no matter what the cut of her features are, has a certain amount of good looks which attract every body. As it is now, she imagines every one sees and talks about "those freckles," those horrid pimples," and other blemishes with which she is afflicted, and this is true of either sex.

To improve this appearance great risks are taken, arsenic, mercury, or high-sound titled named articles containing these death dealing drugs, are taken in hopes of getting rid of all these troubles. In many cases, death is the result. No alleviation of the burning, healing, itching and inflammation is given. All troubled with Eczema (salt rheum), Tetters, Humors, Inflammation, Rough Scaly Eruptions of any kind, Diseases of the Hair and Scalp, Scrofula, Ulcers, Pimples or Tender Itchings on any part of the body, should know that there is hope for them in a sure, perfect and elegant remedy, known as "Dr. C. W. Benson's Skin Cure." It makes the skin white, soft and smooth, removes tan and freckles, and is the best toilet dressing in the world. It is elegantly put up, two bottles in one package, consisting of both internal and external treatment. Our readers should be sure to get this and not some old remedy resuscitated on the success of Dr. Benson's and now advertised as "The Great Skin Cure." There is only one,—it bears the Doctor's picture and is for sale by all druggists. $1 per package.

A Sensation

HAS OFTEN BEEN MADE

by the the discovery of some new thing, but nothing has ever stood the test like Dr. C. W. Benson's Celery and Chamomile Pills.

They really do cure sick headache, nervous headache, neuralgia, nervousness, sleeplessness, indigestion, paralysis, and melancholy.

Price, 50 cents per box, two for $1, six for $2.50 by mail, postage free.—Dr. C. W. Benson, Baltimore, Md. Sold by all druggists.

Of Duchess Co., N. Y., 80 Years of Age, Suffered Continually for Many Years from Stone in the Bladder.

Great age and painful disease are a sad combination. Yet Mr William Westfall, formerly of Rock City, Duchess Co., N. Y., now of Washington Hollow, in the same county, came to the office of Dr. David Kennedy, the eminent Physician and Surgeon of Rondout, N. Y., some time since, in a condition to excite the sympathy of the most cold blooded and hard hearted person in the world. Weary he came—he was, rather, carried to the Doctor's office, for he was totally helpless, and bore the weight of 80 years besides. He had suffered long from Retention of Urine, and had all the symptoms of an aggravated case of calculus formations in the bladder. The usual instrumental examination revealed the presence in the bladder of a urinary calculus of uncommon size. Dr. Kennedy frankly told Mr. Westfall that, owing to his age and debility, an operation was out of the question, but that he could, by the prescription of "Kennedy's Favorite Remedy," together with local treatment, make him comfortable and leave him to live out all his days. The outcome of this was that the patient enjoys good health to this day.

The Reasons Why

Dr. Kennedy's "Favorite Remedy" is being extensively used by our people are as follows. It is a combination of vegetable alteratives. It is pleasant to the taste, adapted to both sexes and all ages, is effective in affording immediate relief in all cases of Kidney troubles, Liver Complaints, Constipation of the Bowels and derangements peculiar to women. At the same time purifies the blood, thus giving tone and strength to the system debilitated by disease or age. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

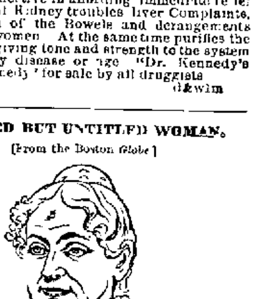
A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]



Messrs. Editors—

The above is a good likeness of Mrs Lydia E. Pinkham of Lynn, Mass. who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says "It works like a charm and saves much pain. It will cure entirely all Ovarian Troubles, Inflammation and Ulceration, all Displacements and the consequent spinal weakness."

It permeates every portion of the system and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache is always permanently cured by its use. It will at all times and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.
